

10 EASY WAYS

save green by going green

Many Missourians believe it will cost them more money to help the environment. This year on Earth Day, try a few of these 10 ways to save green by going green.

- 1.** Turn off electronics when they are not in use.
- 2.** Use e-mail instead.
- 3.** Unplug appliances and electronics.
- 4.** Turn your heat down or air conditioning up when you aren't at home.
- 5.** Refill your ink cartridges.
- 6.** Use the back of unneeded printed paper as scratch paper.
- 7.** Reuse your plastic bags.
- 8.** Take a shorter shower.
- 9.** Recycle your aluminum cans at recycling centers.
- 10.** Donate old items to secondhand stores for tax-deductible receipts.

Earth Day tips are provided by Socket Tech Talk, which distributes general information concerning technology-related topics.
