

TOP SAFETY TIPS

10

for traveling
with a computer

1. Avoid leaving a laptop in extreme heat such as a car.
 2. Never fly with a laptop in checked baggage.
 3. Store under the seat, not in the overhead compartment.
 4. Use public Wi-Fi wisely.
 5. Always keep it close. Don't leave it unattended.
 6. Avoid resting a laptop on a soft surface like a bed.
 7. Record serial number in case of theft.
 8. Take outlet adapters.
 9. Use a privacy screen when working on sensitive data.
 10. Be sure your battery is charged when going through airport security.
